

“Complete service from the complete service provider”

As a “One-stop Shop”, our Companies aim is to offer its valued customers in Europe and in the Middle East high quality services and complete solutions to their problems.

Calibration and Metrology

GlobeTech provides a wide range of calibration, metrology and precision measurement services. On-site services are also available with our mobile units. Our Laboratories are fully environmentally controlled to meet ISO 17025. Our state-of-the-art primary, secondary and working standards, measurement equipment and other instruments of high accuracy provide the means for the calibration of equipment over a wide range of physical and electrical measurements, ensuring at the same time that the traceability of measurements to National and/or International Standards is achieved and maintained.

Testing, Inspection, Product Certification,

GlobeTech provide a wide range of testing, inspection and product certification services. Our state-of-the-art equipment (comprising analysers for gas, emissions, sound, electrical, cable fault locators, electrical screening and testing equipment, analytical measuring equipment, mechanical test equipment and many others) provide the means for mechanical, electrical and physical tests, inspection and product certification. Non-destructive testing is performed and advanced NDT in collaboration with other accredited laboratories.

Conformity Assessment

GlobeTech offers services on Conformity Assessment “CE Marking” according to the EU legislation and more specifically to the “New Approach Directives”. Our technical team can help you with the preparation of a “technical file” and arrange for product certification through our experienced network of independent laboratories.

Validation & Qualification

GlobeTech strives to improve quality in manufacturing companies that implement a GMP (Good Manufacturing Practice), GDP (Good Distribution Practice) and GLP (Good Laboratories Practice) such as Pharmaceuticals, Hospitals, Laboratories, etc. by offering professional validation services.

Commissioning

GlobeTech strives to improve quality in building services and instrumentation sector by offering professional I commissioning services. A Wide range of commissioning services is offered.

Consultancy

GlobeTech provides a comprehensive range of independent consultancy and expert advice to its clients, ranging from advice on purchasing of cost-effective metrology and testing equipment to supply, training and support of high accuracy standards, instruments, and equipment. Furthermore we undertake as turnkey projects full development of certified/accredited laboratories as well as offering specialised training seminars on metrology, calibrations and laboratory management. Other services include, consultancy on calibration requirements for Quality Assurance; advice on the improvement of industrial instruments and manufacturing automation; failure Investigation and expert report, as well as independent inspection, etc.

Applied Research

GlobeTech Laboratories and its highly qualified personnel participate in various research programs in collaboration with leading European academic institutions. Through such involvement, the company is capable of being at the forefront date with technological advancements.
